Important PEOPLE from our past....

O.H.P. Catron

Was an old resident of this county having been born on the soil. His father, Stephen Catron, was born in Tennessee and his mother in Kentucky; they came to this county in 1819 settling near Tabo Grove, then moving near Lexington. O.H. P. Catron was born in 1842 in Lexington and educated at the Shelby College. In the war he joined General Shelby's command and was with him throughout the war. After the war he came home and went to farming until 1879, when he went to merchandising. February 1867 he was married to Miss Martha E. Goodwin, daughter of James and Evelyn Goodwin of this county. By this union he has one child living, Lee. He is a Mason of the Blue Lodge.

NOTICE.....

Our contract with Heartland Waste will expire on September 30, 2012 at which time AAA Disposal Service will take over. The new scheduled trash day for both sides of town will be **FRIDAY!** Large bulky item pick-ups will be included with the weekly pick-up year round. AAA Disposal will also provide one 40 yard open top roll-off container once a year free of charge to the City for a City-wide cleanup! AAA Disposal Service will also pick-up yard waste curbside as long as it is in a 30 gallon commercial grade brown paper bag, which come in a bundle of 20 for \$30.00, which is billed directly to you by the company. There is no limit on how many may be set out on trash days.

AAA Disposal Service will also be providing **FREE OF CHARGE**, one 95 gallon red trash cart to any and all residents wishing to have a trash cart. Please contact City Hall if you are interested so that a list may be turned into the company. Note-You are able to request a trash cart at anytime, not just at this time!

**New trash day will begin on FRIDAY,
OCTOBER 5, 2012!!!!**

The City would like to remind everyone of Ordinance 522, Section 3, Line 11 & 12; pertaining to Nuisances: (11) Dead trees and dead limbs of trees so located that the falling thereof would endanger the safety of persons using any public sidewalk in said City, or endanger the safety of any pedestrian or occupant of any motor vehicle traveling upon any public street. (12) Tree limbs and branches which overhang any public sidewalk or public street of such height above sidewalk of street as shall impede and interfere with the use of said sidewalk by any person, or impede and interfere with the use of said street by a pedestrian or the operator of any motor vehicle, or shall endanger the safety of any person using public sidewalk, or endanger the safety of any pedestrian or occupant or any motor vehicle traveling upon any public street.

The City asks that all branches be trimmed eighteen (18) feet above the ground so that all Road District and City tractors can easily operate during regular street maintenance and snow removal!

Next week maintenance will begin on the water tower. You may have already seen the large blue pressure tank sitting on the corner by the grain elevators. If not, this large pump will help the City maintain its pressure the same way the tower does. This week the water tower company has been isolating the water tower and doing test runs to ensure the City will retain pressure as normal with the pressure tank. Many of you may not have even noticed that we had switched to the pressure tank for testing-which is GREAT. The water tower will be out of commission anywhere from 3-5 weeks while maintenance crews sand blast and recoat the interior walls of the tower and weld a new door onto the roof. There may be times when you notice a slight fluctuation in pressure due to demand but you **SHOULD** always maintain enough pressure to run appliances and faucets as normal. If at anytime you notice a significant drop in pressure or none at all,

please contact City Hall or a City official.
